How much should I order?

A rough guide for large-format drinks, based on standard 8oz servings (about 12–16 cups per gallon). Round up for all-morning meetings or a room full of coffee drinkers.

GROUP SIZE	SUGGESTED ORDER	APPROX. SERVINGS
Up to 15 people	1 gallon	12–16 cups
16–30 people	2 gallons	24–32 cups
30–48 people	1 Cambro (3 gal.)	36–48 cups
50+ people	2 Cambros	72–96 cups

Mixing coffee, tea, and cocoa for one group? Order by the gallon and split the count — most offices land near 60% coffee, 25% tea, 15% cocoa.

Don't see what you're craving? Just because it's not on the menu doesn't mean it isn't possible — call us and tell us what you have in mind.
